

# Introducing a Breakthrough in PT/INR Testing

## The Coag-Sense® Prothrombin Time (PT)/INR Monitoring System

The First Portable System with Direct Clot Detection Technology

Receive a significant cost savings on the  
**Coag-Sense PT/INR System**  
and 5 boxes of 50 test strips

Convenient,  
in-office use

Simple sample  
transfer tubes  
included

Direct clot  
detection  
technology

Patients benefit  
with more-  
frequent testing

Control extended  
from office to home

- First system with Direct Clot Detection Technology
- Accurate results in less than one minute
- Ability to run whole blood or plasma samples
- Not dependent on hemoglobin and hematocrit levels
- Superb precision (CV 2.5%)
- Small sample size (10 µl minimum) for easy dosing
- True functional controls using actual thromboplastin and plasma
- Barcoding on each test strip - no calibration code input or chip required

## The Coag-Sense PT/INR System:

# ACCURATE PT/INR TESTING IS AT HAND WITH DIRECT CLOT DETECTION TECHNOLOGY

### Our introductory offer includes:

- 5 boxes of test strips (quantity 250) plus 10 high and 10 low controls
- 1 analyzer
- 1 professional user manual
- 1 professional quick reference guide
- 1 bag of auto single-usage lancets (quantity 12)
- 4 AA alkaline batteries
- 1 A/C power adapter

<b>Cleared for professional use</b>	Yes, CLIA waived
<b>Cleared for home use</b>	Yes
<b>Sample size</b>	1 drop (10 µL) capillary blood minimum
<b>Sampling method</b>	Single-use autolancet; micropipette transfer
<b>Device specifications</b>	Portable
<b>Size</b>	3 in (7.6 cm) x 6.5 in (16.5 cm) x 5.75 in (14.5 cm)
<b>Weight</b>	1.2 lb (0.5 kg) with batteries
<b>Test strips packaging</b>	50 Individually pouched, plus 2 low and 2 high controls (Avoids Contamination Issues)
<b>Storage</b>	35F°-72 F°, up to 24-month outdate; refrigeration not required
<b>Coding</b>	Barcoded, no code chip or entry required
<b>Heparin sensitive</b>	Yes
<b>Clot detection principle</b>	Direct; measures actual time required for clotting
<b>INR range</b>	0.8–8.0
<b>Precision Ave. CV %</b>	2.5% (Professional Use)
<b>ISI</b>	~1.0
<b>Prothrombin time (PT)</b>	8–80 seconds
<b>Analysis time</b>	<1 minute (Actual Prothrombin Time)
<b>Hematocrit Range</b>	15-60% (No RBCs Required)
<b>QC</b>	True plasma controls included with test strips
<b>Memory</b>	100 tests
<b>Barcoded test strips</b>	Yes, room temp. storage with 24 month outdating
<b>Power source</b>	4 AA batteries or AC adapter (professional system)
<b>Warranty</b>	1 year with immediate replacement
<b>Maintenance</b>	None required

### For *in vitro* diagnostic use

To perform a CLIA-waived test, a certificate of waiver (COW) is required. For more information please contact your local distribution representative or CoaguSense, Inc. at 1-866-903-0890.

**Professional Intended Use:** The CoaguSense Prothrombin Time (PT)/INR Monitoring System is an *in vitro* diagnostic device that provides quantitative prothrombin time (PT) results, expressed in seconds and INR units. It uses fresh capillary whole blood. It is intended for use by health care professionals at the point of care to monitor patients who are on warfarin-type (coumarin) anticoagulation therapy. The device is not intended to be used for screening purposes.
